The month of July, 1881, witnesses the completion of the largest and most important literary work this country and the century have seen. It is the Library of Universal Knowledge, large type edition, in 15 large octavo volumes, containing 10 per cent more matter than Appleton's Cyclopaedia, at less than one-fifth its cost, and 20 per cent more than Johnson's Cyclopaedia, at a little more than one-fourth its cost.

Chambers's Cyclopaedia, which forms the basis of the Library of Universal Knowledge (the last London edition of 1880 being reprinted verbatim as a portion of its contents), is the laborious product of the greatest and ablest British and European scholarship. It has developed through a century of editions having been many times revised, in successive years, till it has come to be universally recognized, by those competent to judge, as standing at the very front of great aggregations of knowledge, and better adapted than any other Cyclopaedia for popular use. It contains such full and important information as the ordinary reader, or the careful student, is likely to require. Chambers's Cyclopaedia, however, is a foreign production, edited and published for a foreign market, and could not be expected to give as much prominence to American topics as American readers might desire. To supply these and other deficiencies a large corps of American editors and writers have added important articles upon about 15,000 topics, covering the entire field of human knowledge, bringing the whole number of articles to an alphabetical arrangement to about 40,000. Thus the work is thoroughly Americanized, and the Library of Universal Knowledge becomes at once the latest and most complete Cyclopaedia in the field, at a mere fraction of the cost of any similar work which has preceded it.

Price of the 15 volumes, complete, in extra cloth binding, \$15.00. In half Russia, sprinkled edges, \$30.00. In half Russia, gilt top, \$22.50. In full library sheep, marbled edges, \$25.00.

The stupendous value and importance of this great Cyclopaedia lies especially in the fact that it is brought within the reach of every one who aspires after knowledge and culture. It is *really* a library. It brings a liberal education easily within the reach even of the very poorest and the apprentice boy of the city. Every farmer and every mechanic in the land owes it to the outfit of his household to have such a Cyclopaedia shall henceforward form a part of the walk of life, a Cyclopaedia is a necessity.

Of course the old and wealthy publishers who have grown rich (it is said that the Appletons have made a profit of nearly two million dollars on their Cyclopaedia) from the sale of their high-priced publications are not pleased that their monopolies are broken and their power overthrown. Of course the book agents and booksellers who have been used to getting from 40 to 60 per cent commission for selling these high-priced books are not pleased that they will be reduced to 15 per cent.

\$10,000 Reward is offered by the Library of Universal Knowledge to any person who will discover that their own interests, after all, are identical with the interests of the *people*, and their real profits, in the end, are increased, by the immense sales which result from meeting the *people's* wants. The majority of bookkeepers, however, are better pleased to *stand* than to *sell* this our numerous and our standard and incomparably low-priced publications. But the Library of Universal Knowledge has always looked to the *people*, in whose interests it is, for its patronage, and it has never looked in vain, as our more than one million volumes printed last year (this year being increased to probably more than two millions) abundantly prove. You can order the Cyclopaedia directly from us, without any intermediary, by sending us the following:

as follows:

A discount of 10 per cent will be allowed to any one ordering at one time three or more sets of the Cyclopaedia; and a discount of 15 per cent will be allowed to any one ordering five or more sets at one time.

As a special inducement to our friends and patrons to go to work *promptly and vigorously*, each doing what he can for the dissemination of universal knowledge, we propose to distribute \$10,000 in special premiums as follows, in addition to the regular discount to clubs:

\$5,000 Reward

To be distributed equally among the first 100 club agents who send us notice of not less than five subscribers, after June 1st and before September 1st.

\$5,000 Reward

To be distributed among the first \$8,000 to be distributed among the club agents who, during the same time, send us the largest number of subscribers, not less than twenty in amount, the amount to be distributed proportionately to the whole number of subscribers which each of the 100 agents has secured.

The names of the subscribers named in every case be forwarded to us. The first \$5,000 named will be distributed promptly on Sept. 1st. The names of the persons receiving these rewards will be printed, with the amounts awarded to each, and the list sent to the Club Agents, or their representatives, so that no reward shall be secured *posthumously for individual sale*, to entitle the club agent to the rewards under this offer, and no newspapers or agents who have no business connection with the Club Agents.

Persons desiring to raise clubs may send to us at once for sample volumes. If they desire, in the various states, 75 cents for the volume in cloth, \$1.00 for the volume in half bound, sprinkled leather, and \$1.25 for the volume in full binding. Orders for the above quantities are filled at the promptness, with our ability to manufacture, beginning not later than July 10th, orders being filled in the order of receipt.

Specimen pages of the "Library of Universal Knowledge" will be sent free upon request. Descriptive circulars, containing prices, terms of sale, and other particulars, will be sent free upon application. Bank drafts, bank checks, money orders, registered letters, or by private means of exchange may be sent in payment excepted.
